“Thanks for the book....wonderful, informative reading and superbly laid out to make for easy and interesting reading of fascinating facts about what could have been a dull subject.” Mike Thomas, from England and author of *'Strange Things Happened on my Way to the Zoo'*.

“Just spent the last three evenings reading 'Milk Cans'. I enjoyed the read very much. It's a great book. My son read it before me with no interest in dairy and said that he enjoyed it and learnt a lot”. Bob Malcolm, from England and contributor of dairy related photographs.
